PROFESSIONAL SUMMARY

B.Tech Computer Science student and MERN Stack Developer with hands-on internship and project experience building REST APIs, JWT-secured backends, and responsive React interfaces using Node.js, Express.js, and MongoDB. Completed the AI Foundation Program at IIT Mandi, applying core AI/ML concepts alongside full-stack engineering. Comfortable across the stack, from database schema design and API integration to production-ready UI development.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript (ES6+)

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Docker

Core Concepts: Data Structures & Algorithms, OOP, Version Control, AI & ML Fundamentals

EXPERIENCE

Full-Stack Developer Intern

Jul 2025 – Sep 2025

Hashedbit Innovation

Remote

- Developed responsive React.js components and integrated them with a Node.js/Express backend to deliver end-to-end features.
- Built and tested REST APIs with MongoDB, covering CRUD operations and data validation.
- Collaborated with the team using Git and GitHub in a scalable web application codebase, following standard branch and review workflows.

PROJECTS

Deepfake Detection System | AI/ML Project | [GitHub](#)

2026

- Developed an AI-based deepfake detection system to classify images as real or manipulated using deep learning techniques.
- Used a Vision Transformer (ViT)-based approach to learn visual patterns and detect facial manipulation in images.
- Implemented image preprocessing and model prediction workflows for efficient deepfake classification.
- Tech:** Python, PyTorch, Vision Transformer (ViT), OpenCV, AI&ML, Deep Learning

Food Delivery Application | Full-Stack Project

2025

- Developed a full-stack food delivery application with user authentication, restaurant and food browsing, cart management, and order placement features.
- Built RESTful APIs using Node.js and Express.js and integrated MongoDB for storing user, food, and order data.
- Designed a responsive React.js user interface and connected frontend components with backend APIs for a seamless ordering experience.
- Tech:** React.js, Node.js, Express.js, MongoDB, JavaScript, JWT

EDUCATION

B.Tech, Computer Science & Engineering

2023 – 2027

Quantum University, Roorkee, Uttarakhand

CGPA: 8 / 10

Class X (UP Board): 86%

Class XII (UP Board): 71%

CERTIFICATIONS

- [AI Foundation Program — IIT Mandi \(2026\)](#) [🔗](#)
- [Full-Stack Development Internship — Hashedbit Innovation](#) [🔗](#)
- Java Programming Certification — Saylor Academy
- Python Programming Certification
